SUBJECT: Your Proposal for Contact Duplicating and Reseau
Printer dated 3 May 1963

Subject proposal which you submitted to this office as a result of the writer's request, has been reviewed with interest. The principles of operation and physical configuration of the proposed device exhibits an excellent comprehension of the stated requirements. However, due to a significant price difference, another proposal, which also satisfies these requirements, has been selected.

Your response to our invitation was most appreciated. It is anticipated that your corporation can be depended upon to furnish this office with other proposals of similar significance as you are made aware of our requirements.

Thank you again for your interest and timely response.

Sincerely yours,

STATINTL
